PROJECTS

Hotel Landing Page

With my proficiency in HTML and CSS, I skillfully crafted a visually captivating Hotel Landing Page that seamlessly integrates stunning imagery, thoughtfully designed layouts, and engaging content, resulting in a compelling digital presence that effectively promotes the hotel's unique offerings and entices prospective guests to embark on a memorable stay

Feet To Meter Converting App

Developed a feet to meter converting project using the Tkinter module in Python. Implemented Tk, Button, Label, DoubleVar, and Entry to create a user-friendly interface for conversion

Website Summary

Created a project using the requests, BeautifulSoup, and Lxml modules to summarize website content. Extracted data from web pages, parsed HTML, and generated concise summaries for efficient information consumption

TIC-TAC-TOE Game

Designed a Tic-Tac-Toe game using Python functions. Implemented the game logic, user input handling, and graphical representation to provide an interactive gaming experience.
